"Hot Hot Hot" is written for everyone who wants a cracking good sex life but hasn't quite managed to grasp it yet. Based on a sex workshop run by Anne Hooper, it is both a reality sex manual and a compelling read. Described as 'a seminal work' it breaks the mould. If you ever wanted to gain more sensual pleasure when making love, you need this book. Here is the scenario - and it is a real one. Six women meet. They have never met before. They come from different backgrounds yet all six are in search of an elusive goal - an orgasm. And not just any old orgasm. It's got to be a long one and a strong one, with tons of emotional meaning...! If it weren't for the fact that these women are in a book and not on camera, "Hot! Hot! Hot!" would be the sexological equivalent of reality TV. How would you talk about your most intimate sensual life if you were faced with five strangers? Could you bare your all - in some senses literally - to a set of outsiders? If you want to know what it feels like to be a sexual explorer you can find out here. As the reader, you become the seventh person to join the group, share these women's experiences, and radically change your own life at the same time. This is a ground-breaking sex manual based on real situations. Anne Hooper's books are regularly in the bestseller lists.
